## YUJET SURFER XT

The XT electric surfboard is designed for intensive use, such as rental operations. Its rugged construction allows for hours and hours of operations in the harshest environments. But it doesn't mean that performance is sacrificed! With a top speed of 41 km/h, the XT board will allow all users to enjoy the frills of high speed surfing. Beginners will appreciate the forgiveness of the board and learn to surf standing in minutes.

Our professional surf shapers have designed the board to make it accessible to absolute beginners of all ages. The inner volume and the shape confer inherent stability to the board, allowing the rider to stand on the board even when stopped in the water. The camber of the nose and the tail rocker have been shaped to facilitate the ride in short choppy waves and increase speed in calm waters while providing total lateral control.

## YUJET JETSKI

Totally emission-free and next to noiseless, the YuCat JetSki redefines family fun on the water.

Finally a jetski designed for all ages and family members.

The YuJet jetski is seamlessly integrates with the YuJet electric surfboard.

Comes Standard with:

- Electric silent and emission-free propulsion system;
- Modular design;
- Highest level of safety;
- Ease of operation;
- 'Slow Mode' for the younger ones.

## SCHILLER BIKE

Take the ride of your life on the world's best water bike. Merging modern design, technology and engineering, the S1-C delivers an unparalleled experience on water.

Schiller water bikes are extraordinary machines designed to propel you across the water.

Water biking is the penultimate human sporting experience for a modern age, blending physical stamina and the drama of competition with an escape from the confinements of land.

## WAKEBOARDING

A brilliant source of thrills and fun, wakeboarding caters for all levels of experience - making it the perfect activity for a warm summer day.

With us you will start and / or improve your wakeboarding skills. You will be coached by professional masters, riders and federal judges with decades of experience.

We offer basic and advanced courses for individuals and groups, adults of any age and children from the ages of 6 years.

We provide full equipment including wetsuits to those who don't have their own gear.

We are using a new technology that enhances the learning curve: two fold in the water.

### WAKESURFING

Living far away from the ocean is no longer a barrier to finding some good waves to surf. You just need to create your own. Wakesurfing is a water sport in which a rider surfs behind a boat, riding the boat's wake without being directly pulled by the boat. After getting up on the wake, typically by use of a tow rope, the wakesurfers will drop the rope and ride facing the steep wave's peak in the same way as real surfing. You don't need anything. We will provide you with the board, specifically designed for our wakes and suitable for your skills level. Our professional full optional boat 2020 Malibu MXZ24 is perfect for beginners and professional riders, while their parents and family can follow them and enjoy in a comfortable way; for schooling we use professional waterproof headphones and speakers, and for an extra cost we can take you in your favourite place for a ride. We have more than 10 year experience in wakesurfing. Trust us!

### WAKEFOILING SURFOILING

Foiling is the future and the future is now. Opening up a whole new spectrum of riding, the possibilities are endless when riding a foil. Surf the wave immediately behind the boat or go way back to surf the third, fourth, or fifth wake. You can feel the smoothest and floatiest sensations you've ever felt on a board, like riding waist deep powder every session or surfing through the clouds. Wake-foil is one of the newest and most exiting innovation the "fun behind the boat" industry has seen in years. It's a new system to fly behind any boat in any type of condition, rough water, smooth water, stormy water. Riders of all ages are guaranteed to have a blast floating through the clouds on this new setup. This new water sport is also preparatory for Wing Foil and Wind Foil.

## WATERSKIING

Waterskiing is a sport in which an individual (or several individuals) is pulled behind a motor boat on the surface of the water.

With our drivers, coaches and perfect boat, waterskiing become a very fun activity which is not as difficult as it seems.

If you don't know how to 'stand-up', we are here to teach you!! Learn the fundamentals of water skiing at "Porto Cervo Luxury Sport".

All coaching and ski equipments are provided by the certified instructors. Water sports enthusiasts or those just looking for a beautiful place to waterski will definitely find it at our location.

We offer you: Free style ski, Combo ski, Mono ski , Junior ski, Child ski.

## KNEEBOARDING

If you're looking for another thrill ride on the water, stop looking after you get acquainted with kneeboarding.

Kneeboarding is a fun and easy way to start your watersport adventures.

These boards are wider, providing easy floatation and they're pretty fun to ride as well! Kneeboarding is an aquatic sport where the participant is towed on a buoyant, convex, and hydrodynamically shaped board behind a motorboat.

The advantages of kneeboarding versus other tow-sports is that it's a much easier way to learn how to ride that allows you to get a sense of movement in the water while being closer to the water in case you fall.

Spin, flip, and curve your way to an unforgettable summer!

## WAKESKATING

Wakeskating is similar to wakeboarding, when you are pulled across the water by a speedboat, but wakeskaters do not bind themselves to the board. Instead, you put your feet on a griptape on top of the board, allowing you to move your feet very much like on a skateboard.

We provide wakeskaters with regular or bi-level boards.

Our private boat lessons are designed to teach the fundamentals and improve your skills.

We will make sure you have a proper riding position and correct any bad riding habits you may have.

From there you should get the knowledge and confidence to try anything! If you are more advanced rider we will teach you specific tricks you are looking to learn.

## FLYBOARD

Do you want to fly out of the water and feel like Ironman?

Try flyboarding!

You can use a flyboard to ride above the water and experience an adrenaline rush offered by hovering on the water and performing acrobatic stunts at the same time.

The Flyboard is a bolt-on device that is attached to a personal water craft (PWC).

After some practice you can be flipping, spinning, and diving your way through the sea.

Our instructors claim that it only takes about 10-20 minutes to learn basic maneuvers, and if you have any experience with other board sports such as wakeboarding or snowboarding - to improve the curve drops dramatically.

This isn't just for you but also for the young studs.

Whether you're 15 or 70 years old you can be shredding the waters with your very own Flyboard.

## JETOVATOR

The Jetovator is a water sports accessory that extends the ability of an existing personal watercraft.

Despite its impressive aerial capabilities, the Jetovator is actually incredibly easy to learn to operate.

The idea of balancing a top a moving hose sounds impossible but the Jetovator provides such a stable platform that we can train just about anybody to operate it safely and proficiently within twenty minutes.

The Jetovator redirects the water thrust from the jet unit of the Jet ski along a sixty foot hose to the Jetovator Bike.

This water thrust is then used to propel and elevate the Jetovator into the air.

The sixty foot(18 mt.) connecting hose is attached to the PWC via a supplied thrust adaptor that redirects the jet thrust 180 degrees towards the front of the PWC.

## INFLATABLE TOWABLES

Tubing is a great way to enjoy the water and share time with family and friends.

The excitement shared with the good company is a recipe for some life's greatest memories.
